

CORPORATE CV

Who are we?

We are a consulting firm with more than 16 years of experience, which is led by four professional sustainability partners in their different elements: care for the environment, business management, health protection and safety of workers, as well as social responsibility actions.

Our clients recognize a high degree of professionalism, provision of clear and tailored solutions, contribution of added value to the projects and a strong component of transparency, ethics and adherence to the law.

We offer consulting and training services in Mexico, United States and Central America
